23	FCRA registration Number	094440130
24	JJ Act Registration Number	KA010010190Z
25	School Registration Number	100934/2022-23
26	Udyam Registration Number	UDYAM-KR-04-0017390

OVERVIEW OF THE PROJECT:

Mahesh Foundation is committed to improving the health and well-being of underserved communities for the past 16 years. In line with our mission, we propose the procurement of a Mobile Clinic Van to deliver essential healthcare services to remote and marginalized areas. This initiative aims to bridge the gap in healthcare access and provide immediate medical assistance to those in need. By bringing healthcare directly to these communities, we address critical barriers such as distance, financial constraints, and lack of transportation, ensuring that no one is left without necessary medical care.

The Mobile Clinic Van will be equipped to offer a wide range of healthcare services, including general check-ups, diagnostic tests, treatment of common ailments, and maternal and child healthcare. Additionally, it will serve as a platform for health education, promoting awareness about hygiene, nutrition, and disease prevention. Through this project, we envision a significant improvement in health outcomes, early detection and treatment of diseases, and overall enhanced quality of life for the target beneficiaries. With your support, we can make a meaningful impact and create a healthier, more equitable society.

Current Scenario:

Need Assessment

The lack of accessible healthcare facilities in rural and underserved urban areas has led to a significant healthcare disparity. Many individuals in these regions face challenges in accessing timely medical care due to distance, financial constraints, and lack of transportation. This results in untreated illnesses, increased morbidity, and preventable deaths. A Mobile Clinic Van will address these issues by bringing healthcare services directly to the communities that need them the most. Additionally, it will serve as a platform for health education, promoting awareness about hygiene, nutrition, and disease prevention.

VISION FOR CHANGE:

Our vision is to create a healthier and more equitable society where everyone, regardless of their location or financial status, has access to quality healthcare services. The Mobile Clinic Van will serve as a catalyst for change, offering preventive, curative, and promotive healthcare services. By doing so, we aim to reduce the healthcare burden on underserved populations and improve their overall quality of life. The Mobile Clinic Van will play a crucial role in transforming healthcare delivery by reaching communities that have been historically neglected. It will not only provide immediate medical care but also empower individuals through health education and awareness programs. By addressing both acute and chronic health issues, the van will help in reducing the long-term healthcare costs for families and the community at large.

TARGET BENEFICIARIES:

The project targets approximately 10,000 needy people from underserved communities.

PROJECT BUDGET

The estimated budget for Mobile Clinic Van is as per mentioned below:

Sl. No.	Particulars	Amount
1.	Total estimated budget for Mobile Clinic Van.	Rs. 32,49,274/-

IMPACT ASSESSMENT:

- Regular visits by the Mobile Clinic Van will ensure that medical care is accessible to those who previously had limited or no access.
- On-site medical examinations and diagnostics will facilitate early detection and treatment of diseases, reducing the risk of complications.
- The van will also serve as a platform for health education, promoting awareness about hygiene, nutrition, and disease prevention.
- By providing free or subsidized healthcare services, the project will alleviate the financial burden of medical expenses on the beneficiaries.

PROJECT IMPLEMENTATION PERIOD:

Start of the Project: **APRIL 2025**

Completion of the Project: **SEPTEMBER 2025**

MONITORING AND EVALUATION OF THE PROJECT:

The project will employ a robust monitoring and evaluation framework to ensure its effectiveness and sustainability. Key components will include:

- Regular reports will be generated to track the number of beneficiaries served, types of services provided, and the health outcomes achieved.
- Beneficiaries and community leaders will be encouraged to provide feedback on the services, which will be used to make continuous improvements.
- Periodic impact assessments will be conducted to measure the long-term benefits of the Mobile Clinic Van on the target communities' health status.

PROJECT IMPLEMENTATION METHODOLOGY:

The implementation of the Mobile Clinic Van project will follow a structured approach:

1. **Procurement:** Identify and purchase a well-equipped Mobile Clinic Van tailored to the healthcare needs of the target communities.
2. **Staffing:** Recruit a dedicated team of healthcare professionals including doctors, nurses, and healthcare workers.
3. **Community Engagement:** Collaborate with local leaders and organizations to identify target areas and schedule regular visits.
4. **Service Delivery:** Provide a range of healthcare services including general check-ups, diagnostic tests, treatment of common ailments, maternal and child healthcare, and health education.
5. **Partnerships:** Partner with local healthcare facilities for referrals and advanced treatments that cannot be provided on-site.

RISK MITIGATION AND CONTINGENCY PLAN:

The Risk Mitigation and Contingency Plan for our project adopts a proactive stance to identify, assess, and manage potential challenges. It involves thorough risk identification, categorization, and prioritization based on impact and likelihood. Mitigation strategies, including financial risk management and scenario planning, are implemented to minimize adverse effects. Contingency resources and adaptive management contribute to maintaining project momentum.

CONCLUSION:

The Mobile Clinic Van project by Mahesh Foundation represents a significant step towards addressing healthcare inequities in underserved regions. With your support, we can bring essential medical services to those who need them most, thereby improving health outcomes and enhancing the quality of life for countless individuals. We look forward to collaborating with you to make this vision a reality and create a lasting impact on the communities we serve.

BRANDING, RECOGNITION AND PARTNERSHIP:

As a token of our gratitude for your support, we offer various recognition and partnership opportunities. These include

a. **Prominent Branding:**

Your organization's logo is prominently displayed on the Van, providing visibility and demonstrating your commitment to social responsibility.

b. **Acknowledgment:**

Recognition on our website, social media platforms, and annual reports, highlighting your partnership and contribution.

c. **Public Relations Opportunities:**

Press releases, media events, and interviews to showcase the impact of our collaboration and raise awareness about the importance of supporting HIV-positive children and needy individuals.
