EXECUTIVE SUMMARY:

This proposal aims to address the educational needs of underprivileged children in Belagavi by distributing 2000 school kits. The school kits will include essential supplies such as notebooks, pens, pencils, erasers, sharpeners, rulers, and backpacks. By providing these school kits, we aim to enable these children to access and engage in education effectively, thereby improving their chances of a better future.

BACKGROUND AND RATIONALE:

Belagavi faces socio-economic disparities, and many children from low-income families struggle to access basic education. Lack of essential school supplies often acts as a barrier to their educational progress. This initiative will bridge the gap by providing them with school kits, giving them a fair chance to excel academically.

The lack of essential school supplies acts as a significant barrier to these children's educational progress. This hampers their academic performance and limits their opportunities for a better future. These school kits will provide them with the necessary tools to overcome their financial barriers and access education on an equal footing with their peers. Moreover, providing school kits to underprivileged children not only has immediate benefits but also has long-term positive impacts on their self-esteem, motivation, and overall well-being.

PROBLEM STATEMENT:

Many families from low-income backgrounds in Belagavi struggle to meet their basic needs, let alone afford school supplies for their children. The cost of school essentials may seem trivial to some, but for these families, it can be a significant financial burden. Underprivileged communities in rural areas, urban slums, and marginalized neighborhoods often lack access to basic amenities and resources, including educational supplies.

Education is a fundamental right for every child, irrespective of their socio-economic background. However, the lack of access to school supplies further widens the gap between privileged and underprivileged children, perpetuating an unequal education system. By addressing this problem, we can empower these children and improve their educational prospects.

Objectives:

- Provide 2000 underprivileged children in Belagavi with school kits.
- Enable access to essential school supplies to enhance their educational experience.
- Promote equitable education and reduce disparities.
- Empower underprivileged children and boost self-esteem.
- Reduce dropout rates and improve educational outcomes.

PROPOSED SOLUTION:

The proposed solution for addressing the lack of access to essential school supplies among underprivileged children in Belagavi is to distribute 2000 school kits. These school kits will contain the necessary materials needed for a child's educational journey, including notebooks, stationery etc. Alongside the distribution of school kits, awareness campaigns will be conducted to emphasize the importance of education and the role that school supplies play in enhancing learning outcomes. Parents, teachers, and community members will be sensitized to the significance of providing continuous support to children's education and the long-term benefits it brings.

TARGET BENEFICIARIES:

The target beneficiaries of this project are underprivileged children in Belagavi, specifically those from low-income families who face financial constraints in obtaining necessary school supplies. Our focus will be on children from marginalized communities, rural areas, and urban slums, who have limited access to educational resources.

PROJECT IMPLEMENTATION:

The project will be implemented through the following steps:

- a.** Assessing the needs: Conduct a survey and collaborate with local NGOs, schools, and community members to identify the underprivileged children who are in need of support.

- b.** Procurement of school kits: Source the required school supplies from reliable vendors, ensuring quality and cost-effectiveness.
- c.** Kit assembly: Organize volunteers and staff to assemble the school kits, ensuring each kit contains all the necessary supplies.
- d.** Distribution: Partner with local schools, NGOs, and community centers to distribute the school kits to the identified beneficiaries.
- e.** Awareness and engagement: Conduct awareness campaigns to emphasize the importance of education and engage with the community to promote sustainable change.

EXPECTED IMPACT:

The distribution of 2000 school kits will have several positive impacts, including:

- a.** Improved access to education: Children will have the necessary supplies to actively engage in their studies.
- b.** Enhanced academic performance: With the right tools, students can concentrate better and achieve improved educational outcomes.
- c.** Increased self-esteem: Access to school supplies will empower children and boost their self-confidence.
- d.** Reduction in drop-out rates: By removing financial barriers, we aim to reduce the likelihood of children dropping out of school

BUDGET DETAILS:

The estimated budget for this project is as follows:

SI No	Particulars	Total Expenses requested	Total Requested Funds
1	School Kits Support for 500 Children's.	1000/- Per Child	5,00,000/-

MONITORING AND EVALUATION

A dedicated project team will be responsible for monitoring the project's implementation. Feedback from the beneficiaries will be collected through surveys or interviews to assess the impact of the school kits on their educational experience. This feedback will provide valuable insights into the effectiveness of the project and help identify areas for improvement. Periodic monitoring visits will be conducted to the distribution sites and beneficiary locations to ensure that the school kits are being used effectively and to address any issues that may arise. A comprehensive impact assessment will be conducted at the end of the project to evaluate the overall effectiveness and sustainability of the school kit distribution initiative.

SUSTAINABILITY

We aim to create a lasting and transformative change in the lives of underprivileged children in Belagavi. The project will ensure that children continue to benefit from improved access to education and the essential school supplies they need to thrive. As part of the project, we will organize workshops and awareness sessions for community members on the importance of education and the effective use of school kits.

AWARDS & ACCOLADES:

Mahesh Foundation has been honored by many government and non-government institutions for the incredible services rendered to HIV-positive and underprivileged children.

2014	State Award by the Hon'ble Governor of Karnataka Government for Child Welfare.
2017	National Award for Child Welfare by the Honorable President of India.
2020	DH Changemaker 20 in 2020 award by Deccan Herald
2021	Kalam Awards-2021 by KITES Foundation, Kerala
2022	"Badlaav Humse Hai" award by Network18.

BRANDING, RECOGNITION AND PARTNERSHIP:

As a token of our gratitude for your support, we offer various recognition and partnership opportunities. These include

a. **Prominent Branding:**

Your organization's logo is prominently displayed on the school premises, providing visibility and demonstrating your commitment to social responsibility.

b. **Acknowledgment:**

Recognition on our website, social media platforms, and annual reports, highlighting your partnership and contribution.

c. **Public Relations Opportunities:**

Press releases, media events, and interviews to showcase the impact of our collaboration and raise awareness about the importance of supporting HIV-positive children and needy individuals.
