22	ISO 9001:2015 Certification No	QMS- XX-XV-I-IX-2159
23	FCRA registration Number	0944440130
24	JJ Act Registration Number	KA010010190Z
25	School Registration Number	100934/2022-23
26	Udyam Registration Number	UDYAM-KR-04-0017390

OVERVIEW OF THE PROJECT:

Mahesh Foundation is dedicated to empowering underprivileged children by providing them with access to quality education, healthcare, and a nurturing environment. With our new school building designed to accommodate 2000 children from marginalized backgrounds, we propose the establishment of a Digital and Non-Digital Library to ensure these children have equal opportunities for holistic learning and development.

The proposed library will serve as a vibrant learning hub equipped with physical books, digital resources, and interactive tools that promote curiosity, creativity, and critical thinking - enabling children to break free from the cycle of poverty and social neglect.

CURRENT SCENARIO:

Need Assessment

In our journey of working with underprivileged children, we have observed a severe lack of access to quality educational resources. Most children at Mahesh Foundation come from disadvantaged families that cannot afford books, digital devices, or access to knowledge outside of the classroom. The absence of such exposure limits their academic growth, imagination, and awareness of the world.

A well-equipped library — both digital and non-digital — will bridge this knowledge gap and offer these children the same opportunities to learn and evolve as their privileged peers. It will foster self-learning, research skills, and digital literacy, which are crucial in today's knowledge-driven world.

VISION FOR CHANGE:

Our vision is to create an inclusive educational ecosystem where every child, irrespective of their socioeconomic background, can access high-quality learning resources and cultivate a lifelong love for knowledge.

The **Digital and Non-Digital Library** will:

- Empower underprivileged children with access to diverse educational materials.
- Promote digital literacy and self-learning.
- Provide a safe and stimulating space for creative and academic exploration.
- Reduce educational disparities by offering access to the latest information and technology.

TARGET BENEFICIARIES:

The primary beneficiaries of this project will be:

- **2000 underprivileged children** enrolled at Mahesh Foundation's new school, including children living with HIV, orphans, semi-orphans, and children from economically weaker sections.
- Secondary beneficiaries include teachers and caregivers who will leverage these resources to enhance their teaching methodologies and mentoring practices.

IMPACT ASSESSMENT:

The establishment of the Digital and Non-Digital Library will yield long-term transformative outcomes:

- **Academic Growth:** Increased academic performance through enhanced access to curriculum-supporting materials and reference books.
- **Digital Competency:** Improved digital skills through interactive e-learning modules and educational software.
- **Critical Thinking:** Development of analytical and research capabilities through independent study.
- **Self-Confidence:** Encouragement of self-driven learning will help children become more confident and self-reliant.

- **Social Inclusion:** Bridging the gap between underprivileged children and mainstream educational resources, reducing social disparities.

MONITORING AND EVALUATION OF THE PROJECT:

Mahesh Foundation is committed to transparent, measurable, and sustainable impact. The following mechanisms will be used:

- **Monthly Usage Reports:** Recording the number of students utilizing the library and the types of resources accessed.
- **Feedback Collection:** Regular feedback from students and teachers to assess satisfaction and areas for improvement.
- **Annual Impact Review:** Comparing student performance, digital proficiency, and reading habits pre- and post-library establishment.
- **CSR Reporting:** Providing detailed reports to the sponsoring organization with quantitative and qualitative outcomes.

PROJECT IMPLEMENTATION METHODOLOGY:

The project will be implemented in the following phases:

- 1. Infrastructure Setup:** Designing and setting up the library space with proper lighting, seating, shelves, computers, and internet connectivity.
- 2. Resource Procurement:** Acquisition of age-appropriate books, e-books, academic journals, learning software, and digital subscriptions.
- 3. Library Management System:** Deployment of a digital catalog and training for library staff to maintain records and facilitate smooth operations.
- 4. Capacity Building:** Conducting orientation and training sessions for teachers and students to maximize the usage of both digital and physical resources.
- 5. Ongoing Maintenance:** Regular updates to library content, system upgrades, and ensuring the library remains a dynamic learning space.

CONCLUSION

At Mahesh Foundation, we believe education is the most powerful tool to transform lives. The proposed Digital and Non-Digital Library is not just about books and computers — it is about opening a world of possibilities for 2000 underprivileged children, nurturing their potential, and empowering them to become responsible, confident citizens.

We invite your esteemed organization to collaborate with us in this meaningful initiative. Your CSR support will help lay the foundation for equitable education and social inclusion for countless children, creating a ripple effect of positive change in the community.

BUDGET:

The estimated budget for the Establishment of **Digital & Non - Digital Library**
Underprivileged Children

Sl. No	Requirement Details	Estimated Budget
1	Total Estimated budget to Setup <u>Digital & Non - Digital Library</u> Underprivileged Children	Rs. 11,50,000/-

PROJECT IMPLEMENTATION PERIOD:

Start of the Project : **May 2025**
Completion of the Project : **August 2025**

BRANDING, RECOGNITION AND PARTNERSHIP:

As a token of our gratitude for your support, we offer various recognition and partnership opportunities. These include

a. **Prominent Branding:**

Your organization's logo is prominently displayed on the school premises, providing visibility and demonstrating your commitment to social responsibility.

b. **Acknowledgment:**

Recognition on our website, social media platforms, and annual reports, highlighting your partnership and contribution.

c. **Public Relations Opportunities:**

Press releases, media events, and interviews to showcase the impact of our collaboration and raise awareness about the importance of supporting HIV-positive children and needy individuals.
